

# The M.E blood ban is really about XMRV

Don't just ban me  
**Cure M.E**

Causative?

XMRV is the third  
known human retrovirus

The others are  
HTLV & HIV

"There are no plans  
to screen blood already  
stored in blood bank"  
(Anne Milton, Minister for Public Health  
October 2010)

Human  
Retrovirus?

Infective?  
Mutating?  
Transmissible?  
Carcinogenic?

In the UK  
blood supply?  
Are you sure?

**M.E ?**

**Why don't you GET that?**  
Fund replication research NOW
